

# 2024 BlueCross Preventive Drug List

When you fill a prescription of a drug on this list you'll only pay your share of the cost (copay or coinsurance) for preventive drugs—even if you haven't met your deductible. This makes it easier for you to buy the medications you and your family need to stay healthy today – and tomorrow.

Medications on this list help prevent and manage several health concerns. Please follow your doctor's treatment plan and take them as you're directed.

*This list contains some of the most commonly prescribed preventive care drugs and isn't all-inclusive. This list doesn't guarantee coverage for preventive care drugs that aren't listed. In most cases, generics will be the most affordable options. If you choose the brand name version instead of a generic equivalent, your copay may be higher. Some of the drugs listed may be subject to prior authorization, step therapy and/or quantity limits. Check your Evidence of Coverage or member handbook to see if this applies to your plan.*
